

I am disturbed by the blatant attempt of Sinclair Broadcasting to unduly affect the democratic process in this country by airing what is an overt political advertisement (as described by thier own former employee - fired for exposing this position). They are circumventing campaign election law by labeling information that is more than 30 years old as 'news' to allow themselves to air it within the last two weeks of an election cycle. If this were truly 'news', why did they not air it earlier in the cycle? Since this is such a blatant attempt to circumvent the election laws of this country, I do not feel that this is in any way in the best interest of the community (local, state or national). I believe that Sinclair should be barred from airing this program at such a volatile time in this election cycle.

Thank You,
